Linde Field Service Engineer

Description

Linde Material Handling are one of the world's leading manufacturers of forklift trucks and warehouse equipment. We operate in over 100 countries worldwide, and have around 13,000 people working for the brand. A network of more than 8,500 service technicians ensures maximum availability of Linde trucks and solutions, and based on its worldwide logistics network, Linde guarantees spare part delivery within 24 hours. We are subsidiary of the KION Group

An exciting opportunity has risen within Linde Material Handling Ireland for you to join our rapidly growing Aftersales Division. We are currently looking for a Field Service Engineers to join our team in the Leinster and Munster area. (Nationwide)

We are looking for motivated, driven and organised vehicle technicians or mechanical engineers who have experience working as a forklift technician, plant fitter, plant technician, vehicle technician or a similar type of role. Experience within plant equipment, powered access equipment, agricultural machinery, motor vehicles or industrial cleaners may make this role perfect for you!

Working with everything from small pallet trucks, through to IC trucks, VNA trucks and automated trucks, you will be required to find, diagnose, and rectify faults, and undertake preventative maintenance on Linde forklifts and other material handling equipment at our customer sites.
